He alleges that the Scientology movement has attempted to discredit him (by mailing fake newsletters to members of the Association of International Dianologists, a movement organized by Mr. Horner.) (His offices were broken into during October, 1970, and tapes containing his mailing list were stolen. During November, 1970, members of the Dianologist group received fake newsletters designed to discredit Mr. Horner and his group.

A sea organization was formed which (Mr. Horner) described as equivalent to the Brown Shirts, which enforced Scientology directives.

7. (Mr. Horner) stated that he was still very much involved in the basic principles of Scientology, (having organized his own Dianology movement along similar lines in about 1969.) He has experience in operating the E meter, which he described as a device for measuring thought response. He stated it was a simple machine, basically nothing more than a galvanometer.

8. Although (Mr. Horner) cannot prove that the various harassment actions were caused by Scientology officials, he can give considerable information regarding the formative years of Scientology, as well as his personal association with L. Ron Hubbard, and his operating experiences with the E meter.
